### And What Have You

By BOB CRAIG

Hamlin's turnout for the voting Saturday, while it was not up any where near its full potential, was above average and those who did take the time to vote are to be commended.

The most encouraging part of the election was the number of local people who got involved in the issues and candidates and worked hard to get the voters out. This is the life blood of our political system and can make Hamlin a force to be reckoned with in this area.

There are a great many important political issues that come up from time to time that could have a strong bearing on the well being and future of Hamlin. And for our desires and wishes to be considered, the people of Hamlin and this area must become actively involved in the day to day politics at the local, county, district and state levels.

To many people politics is a dirty word, but this is true only when the public does not concern itself with the issues and the candidates. It is when the decisions are made in the back rooms rather than by the public that politics becomes dirty.

Because of the work done by many people here during the first and second Democratic Primaries, Hamlin will have a much greater say in county and area government for the years to come. Just because Hamlin lies on the fringe area of the county does not mean that we should not be concerned about what happens at the court house in Anson. But to have a say in matters concerning county government you have to become involved.

Sig Atkinson has some interesting comments on tornadoes in his Brownfield News column, worth passing on. He cites facts from the current edition of the Texas Almanac, among which are the word that tornadoes are most apt to occur during the months of April, May and June. Other comments follow:

"They occur with the greatest frequency between the hours of 4 and 8 p.m. During a 20-year period (1951-1970), slightly more than one-fourth of the tornadoes recorded in the state came during the month of May.

"Partly due to the state's size, more tornadoes have occurred in Texas than any other state, a total of 1,907 during the 20-year period. Actually, in the number of tornadoes per 10,000 square miles of area, Texas ranks ninth among the 50 states, with an average of 3.6 per year.

"The greatest outbreak of tornadoes on record in Texas was associated with Hurricane Beulah in September of 1967 when 115 tornadoes are known to have occurred, with 67 of those coming in one day.

"What was the most costly tornado ever to hit Texas? The Lubbock tornado of May 11, 1970, again according to the Texas Almanac. Twenty-six persons were killed, 500 injured and damage was recorded estimated at \$135,000,000.

"Fifteen square miles, almost one-quarter of the city of Lubbock, suffered damage. There were almost as many deaths in the Lubbock tornado as were recorded in the worst hurricane ever to hit the state. Hurricane Carla caused 34 deaths and 465 injuries. Property and crop damage were conservatively estimated at \$300,000,000."

The following excerpts from a letter written by a Lutheran pastor first appeared in Wes Izzard's column in the Amarillo paper and are making the rounds of West Texas newspapers.

"Atheists," the pastor wrote,

## THURMAN, YOUNG LEAD HERE—

## Thurman, Martin Win In Saturday Primary

Jones County Judge Leon Thurman needed the huge Hamlin margin he received here Saturday to gain re-nomination as he won a very close contest with Anson motel owner Roy L. Lane in the Democratic runoff. Thurman edged out Lane by 45 votes, 1,173 to 1,128.

Thurman received his biggest edge in the combined Hamlin boxes as he led 372 to 94. He also led in the huge Anson box 439 to 290 and led in Avoca 28-25, Round Mound 18-14 and carried the absentee box 42-11.

Lane picked up his biggest vote total in Stamford as he led 383-182 and carried Lueders 113-30, Hawley 124 to 44, and Noodle 45-19.

Eight out of the nine Jones County boxes went for Abilene Attorney Mike Young in his unsuccessful bid to unseat incumbent State Rep. Elmer Martin. Young received his biggest margin in Jones County as he out polled Martin 1,370 to 914 with only the Stamford box going for Martin 364-198. Young won all the other boxes, Hamlin 350-112, Anson 409-290, Lueders 106-36, Avoca 28-27, Hawley 149-17, Noodle 51-13, and Round Mound 24-8, as well as the absentee box 60-14.

Rep. Martin carried the 5-county District 61 State Representative race by a 2-1 margin, 5,721 to 2,871. Since no Republican filed for the post, the former Mitchell County Judge will return to the state legislature for a second two-year term.

Mitchell and Nolan Counties provided the incumbent legislator with the

winning margin. Mitchell County gave Martin 95 percent of the votes cast, while Nolan County delivered 80 percent of the vote to the legislator.

Martin carried Fisher County 569-213, Mitchell County 1,452-81, and Nolan County 2,209-566, with Young carrying Taylor County 641-575 and Jones County 1,370-916.

Cork's expenses to the meet this weekend have been paid by Coca-Cola Bottling Company of Abilene and Coach Grissom's expenses are being paid by local donations.

**SHOWS OFF HIS MEDALS**—Bill Cork, Hamlin's outstanding quarter-miler, shows off his three medals he won this past weekend to his track coach Bill Grissom (at left). FROM THE FILES . . .

FIFTY YEARS AGO  
(May 30, 1924)

An infertile egg never spoils. In the warm climates, it eventually becomes watery, but in a cool atmosphere will remain fresh indefinitely.

During the summer season, there is a general "bad egg" complaint; the wise house wife has learned to "handle with care" summer eggs—Even to "stop, look, listen," before breaking. This loss and inconvenience can be prevented by keeping the roosters penned from the flock.

It has been proved conclusively that the egg production is as great when there are no roosters among the flock as when they are allowed to run with the hens. The average Texas poultry keeper thinks of the flock as a mere side line and carelessly ignores the fundamentals upon which the profits from the hen are dependent. Perhaps one-fourth of the Texas summer eggs are spoilt and are never consumed.

Doubtless the average house wife would pay five cents a dozen more for eggs that she knew to be sound.

A. R. Masterson, County Agent

This week the teachers and pupils have been very busy closing up their 1923-24 school term. The final programs began on Thursday evening of last week and there has been some feature of school work every night, except Monday and Wednesday nights. Two attractive programs were rendered by the Expression Department and Music Department on closing nights of last week. The Baccalaureate Sermon was delivered at the Baptist Church, Sunday night, despite the fact that the weather was rainy and stormy. There was a fairly well filled house and Rev. Edmonds gave the graduates a wonderfully good sermon.

Chrome-framed plate glass show windows that go practically to the floor provide a thorough natural lighting from the east front of the store.

Upon entering the place, one is immediately impressed by the beautiful new fixtures that were designed and built-to-order for the store.

A completely new soda fountain sets off the south center of the store. Serving booths and tables flank the west end of the fountain.

In the north rear of the store a modern prescription department is the last word in arrangement. Scientifically designed for quick access to prescription ingredients, it features modern lighting.

Jerry Waggoner, co-owner of Waggoner Drug, followed in his father's footsteps by growing up in the drug store.

TEN YEARS AGO  
(June 4, 1964)

Current events were used in this year's study of birds in the second grade class taught by Mrs. Leldon Clifton as the class followed with great interest the birth of a whooping crane which boosted the population of whooping cranes from 39 to 40.

The class became interested in the the whooping cranes after reading an account in the Abilene Reporter-News concerning the setting of two whooping crane eggs by bantam hens. One was due to hatch April 30 and the second was due to hatch about May 2 or 3. The eggs were donated by the New Orleans Audubon Park Zoo.

The class watched for a story about the hatching but when there was no item published about it they wrote the Fish and Wildlife Service of the Department of the Interior for further information.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.

GREEN THUMB . . . is the way of describing those that have a way with plant life. The ones, who are so gifted, will tell you that to be successful with plants, you must see that they have plenty of water. God knows too, that a soul must be watered in order for it to mature and grow.

*"...and thou shalt be like a watered garden, and like a spring of water, whose waters fail not." Isaiah 58:11*

Fisher County Names Mrs. Kemp As Senior Citizen

Mrs. Beatrice C. Kemp of McCaulley, 96, has been named Fisher County's Outstanding Senior Citizen for 1974 according to Mrs. Alice Ballenger, Fisher County Extension Agent.

The Fisher County Committee on Aging asked all area churches and organizations for nominations earlier in the year. Mrs. Kemp was nominated by the United Methodist Women of the United Methodist Church of McCaulley. The final selection was made by the Fisher County Committee on Aging. The Rev. Thomas Taylor of Rotan is chairman of the committee.

Presentation of the certificate was made by Ralph Ammons, a member of the committee. The presentation was at the close of the morning worship service of the United Methodist Church of McCaulley.

Mrs. Kemp was born Beatrice Colwell in Mississippi in 1877. She moved with her family to Alabama at the age of two and to Texas at the age of three. She has lived in Fisher County since 1891.

Group Sets Concert Here Tonight At 7:30

Paul DeLaTorre and the Galileans, advertised as America's number one Latin gospel group, will be presented in concert tonight (Thursday) at 7:30 in the First Assembly of God Church.

DeLaTorre was a leader of a rock band before his conversion in 1960 and had, at one time, played with singer Trini Lopez. Mexican-Americans singing gospel songs was unheard of until this 19-year-old performer, searching for some means of expressing his new-found Christianity, asked himself, "Why not?"

Originality of style, combined with professional performing talents, has been a hallmark for The Galileans, who make their home in Dallas. All had had a taste of the entertainment business in earlier years, and, like Paul, found it "empty."

Joel Perales, pianist and vocalist, has a tremendous talent for writing and composing. Rose Perales, Joel's wife, sings harmony, lead and plays tamborine. Tony Gonzales, who is also a minister, rounds out the foursome singing lead and baritone.

The Galileans have recorded 10 stereo albums of

gospel music, also available on 8-track stereo tapes.

The bilingual group combines a concert repertoire of their own arrangements of old and contemporary religious songs along with selections in Spanish lyrics, often in an instrumental setting that has a distinctly Latin American flavor.

The pastor, the Rev. Carl

Amburn, extends an invitation to all to attend.

My heartfelt thanks to all the 61st District for the tremendous vote Saturday for my re-election as your State Representative. Billie and I trust that God will help us to be humble as well as joyful in victory.

My best wishes to my opponents in the Democratic campaign as well as the run-off. And a very special thanks to those Hamlin and Jones County volunteers who worked so long and hard for my candidacy while I was busy in Austin on the Constitutional Convention.

My aim will be to continue to serve the best interests of all of us in District 61 with integrity and dedication. Sincerely, I ask for your advice and your help for the task ahead. Again, warmest thanks from Billie and me. — Elmer Martin your State Representative.

Noinda Philosopher Cleans Out Desk With All Sorts of Items Resulting

Editor's note: The Noinda Philosopher on his Johnson grass farm on Route One turns over some notes he says he has been accumulating recently.

Dear editor:

A desk, like Congress I guess, ought to be cleaned out every once in a while. Here are some notes I cleaned out of mine:

For weeks a neighbor of mine has been demanding to know what I think about Watergate. Well, I'll tell you, I have now read a good portion of the transcripts and I am firmly convinced that President Nixon has absolutely no fore-knowledge that the Watergate burglars were going to get caught.

Some politicians who have been straddling the fence for years are now finding out it was made of barbwire. Around here we call the T.V. show "Face The Nation," "Two-Face The Nation," and "Meet The Press," Dodge The Question. "Issues And Answers" is known as

Confusing The Issues And Answers.

There's something to be said for a man who is smart enough to know he's not smart enough to be President. Probably need more of 'em.

The proof of the pudding no longer is in the eating, it's in the results of its scientific nutritional analysis and the effect it has on mice when they're fed nothing else for a month.

The word Watergate will now go down in history as a new word with a lot of awful meanings and I was just thinking, what if that building in Washington had been named The Hamlin Building? School children for years to come would be learning that Hamlin was a word standing for burglary, unlawful bugging, moral decay, defiance of the Constitution, obstruction of justice, perjury, bribery, confessions of guilt, jail sentences and no telling what all before the

**NEWS FROM OLD GLORY**  
By BERNICE D. WHITE

Our community was fortunate indeed when we received that good rain last week end. Up to around two inches has been reported for the Saturday and Sunday night combination. Much of the wheat has already been harvested, and many farmers were waiting for this rain to plant or give a boost to crops that were already up.

Vegetable gardens are also looking much better this Monday morning.

Mr. and Mrs. Clancy Lehrmann celebrated their 25th wedding anniversary with a dance at the Old Glory Sons of Herman Hall last Saturday night. Refreshments were served to approximately 300 people.

Guests registered from Slayton, Mathis, Georgetown, Lubbock, Snyder, Abilene, Lewisville, Fort Worth and Old Glory and other area towns.

Mr. and Mrs. Lehrmann were married on June 2, 1949. They have two children. Their daughter Gayle is a physical education teacher at Lewisville, and their son Steve is a student at Texas Tech in Lubbock.

The Old Glory Variety Club met last Thursday in the home of Mrs. Danny Letz. The meeting was hosted by Mrs. Allen Letz. Eight members were present and they enjoyed an afternoon of quilting.

Mrs. Garrett Spitzer will be hostess for the next meeting on the afternoon of Tuesday, June 11.

Eustaquio Castro-Mendoza is listed on the Dean's Honor Roll for the spring semester at Angelo State University where he is a student.

He is a 1973 graduate of Old Glory High School and is the son of Mr. and Mrs. Isaac Castro.

**WIRE SHORTAGE THREATENS** — A serious baling wire shortage may cause economic hazards, Agriculture Commissioner White warned.

White earlier said the shortage would be between 22 and 47 per cent. Industry sources reported a 30 per cent shortage nationwide and a possibly higher figure for Texas.

Prices may rise from \$28 and \$50 a carton to \$70, White said. A year ago, the price was \$13. White said a black market situation may develop in baling wire as in fertilizer.

Haybaling is just beginning in the state. Ninety per cent of farmers in Texas use wire to bale hay.

## NEWS AND VIEWS...

### And What Have You

By BOB CRAIG

Hamlin's turnout for the voting Saturday, while it was not up any where near its full potential, was above average and those who did take the time to vote are to be commended.

The most encouraging part of the election was the number of local people who got involved in the issues and candidates and worked hard to get the voters out. This is the life blood of our political system and can make Hamlin a force to be reckoned with in this area.

There are a great many important political issues that come up from time to time that could have a strong bearing on the well being and future of Hamlin. And for our desires and wishes to be considered, the people of Hamlin and this area must become actively involved in the day to day politics at the local, county, district and state levels.

To many people politics is a dirty word, but this is true only when the public does not concern itself with the issues and the candidates. It is when the decisions are made in the back rooms rather than by the public that politics becomes dirty.

Because of the work done by many people here during the first and second Democratic Primaries, Hamlin will have a much greater say in county and area government for the years to come. Just because Hamlin lies on the fringe area of the county does not mean that we should not be concerned about what happens at the court house in Anson. But to have a say in matters concerning county government you have to become involved.

Sig Atkinson has some interesting comments on tornadoes in his Brownfield News column, worth passing on. He cites facts from the current edition of the Texas Almanac, among which are the word that tornadoes are most apt to occur during the months of April, May and June. Other comments follow:

"They occur with the greatest frequency between the hours of 4 and 8 p.m. During a 20-year period (1951-1970), slightly more than one-fourth of the tornadoes recorded in the state came during the month of May.

"Partly due to the state's size, more tornadoes have occurred in Texas than any other state, a total of 1,907 during the 20-year period. Actually, in the number of tornadoes per 10,000 square miles of area, Texas ranks ninth among the 50 states, with an average of 3.6 per year.

"The greatest outbreak of tornadoes on record in Texas was associated with Hurricane Beulah in September of 1967 when 115 tornadoes are known to have occurred, with 67 of those coming in one day.

"What was the most costly tornado ever to hit Texas? The Lubbock tornado of May 11, 1970, again according to the Texas Almanac. Twenty-six persons were killed, 500 injured and damage was recored estimated at \$135,000,000.

"Fifteen square miles, almost one-quarter of the city of Lubbock, suffered damage. There were almost as many deaths in the Lubbock tornado as were recorded in the worst hurricane ever to hit the state. Hurricane Carla caused 34 deaths and 465 injuries. Property and crop damage were conservatively estimated at \$300,000,000."

The following excerpts from a letter written by a Lutheran pastor first appeared in Wes Izzard's column in the Amarillo paper and are making the rounds of West Texas newspapers.

"Atheists," the pastor wrote,

**FIREMEN HONORED**—A family get-together at the Firemen's Cabin at South Lake was held Thursday by the Hamlin Volunteer Fire Department to honor four of its members. Honored for 20 years or more service were, left to right, Bill Thompson, Ed Branscum, Lee Hastings and J. O. Murphree. They were presented certificates by Young Bill Maddox.

## Hamlin Child Care Center Now Taking Applications

Parents of children who will be using the Hamlin Child Care Center which will be opening soon are asked to register their children with Mrs. L. C. Bonds at the Hamlin Board of Community Development.

The Center will be set up to care for 35 children from birth to five years of age. Children 6 and 7 will be kept

only in the afternoon from 2:30 to 4 p.m. during the school year. This will be an accommodation for working mothers who have smaller children in the center full time.

All children going to Headstart will be qualified to be enrolled. The bus will take the children to the Center and the parents will pick them up.

Only children of working mothers or those seeking employment may be enrolled. Welfare or potential welfare recipients may qualify for the government to pay 70 per cent.

Mrs. Bobby Crowley will be Center director. She will be responsible for hiring the staff with the Board of Directors' approval.

Planned activities will be based on the abilities of each age bracket. The children will be served lunch and a snack in the morning and afternoon. Cost of each child will be \$17.50 per week. Children at the center as long as four hours will be considered as a whole day.

The center is located in the building formerly occupied by McCoy Funeral Home at the corner of East Lake Drive and North Central. Extensive repairs and remodeling of the building have been made. A chain link fence was also added.

## Summer Youth Recreation Program to Open Monday

Miss Mary Esco has been named director of the Summer Youth Recreation Program, sponsored by the Hamlin Board of Community Development.

Registration for the program will be held at 9 a.m. Monday at the high school.

Physical education and arts and crafts are being planned for all ages. All Hamlin youngsters are in-

vited to take part in the program which will continue through July 3.

Miss Esco, Hamlin public school librarian, in accepting the directorship, noted that she would need volunteers to help in the program. Volunteers are urged to contact her at 576-2256 or report to the school at 9 a.m. Monday.

## Herman Reeves Named County Tax Assessor

Herman Reeves of Anson was named this week to serve as interim Tax Assessor-Collector for Jones County to fill the vacancy created by the resignation of Louis T. Johnson effective June 30. Reeves was named to the post by the Jones County Commissioners Court.

The Jones County Democratic Executive Committee is now taking applications for persons to be the Party's nominee on the November General Election ballot. The one elected to that office in November will take office the first of the year and will serve out the two remaining years on the current term.

Those interested in being considered by the Executive Committee should make application with Moody Galbreath, Jones County Democratic Chairman on or before August 15, 1974.

The Committee composed of Galbreath and the 14 Precinct Chairman will meet Sept. 4 at 1 p.m. to select the party's nominee.

Johnson submitted his resignation to the Commissioners Court at their regular meeting Monday, May 13, to be effective June 30.

## Track Fund

Raymond Scifres, who is in charge of the Bill Cork Track Fund, wishes to remind everyone that Bill will be traveling to Chicago, Ill., this weekend and more donations will be needed to finance this trip.

Donations may be contributed to Mr. Scifres or to F & M National Bank.

## Preliminary Plans Made For City-Wide Crusade

Preliminary plans for the David Stockwell City-wide Crusade, July 7-11, will be made this weekend when Bass Redd of LaPorte comes to Hamlin to meet with ministers and workers. A Pre-Crusade Rally will also be held with Redd as the speaker.

He will meet with cooperating ministers and committee chairmen at a breakfast Saturday morning at 8 in the dining room of Hamlin Restaurant.

At 2 p.m. Saturday he will conduct a training session for all those who will be serving as counselors for the crusade. This will be held in Fellowship Hall of First United Methodist Church.

At 7:30 p.m. the rally will be held in the auditorium of First Baptist Church. Everyone is invited to attend.

## RAINFALL

Rainfall over a period of four days has totaled .95, according to Bill Rountree, official gauger for Hamlin.

Recorded Sunday was .12; Monday, .21; Tuesday .58; and after 5 p.m. Tuesday .04. The precipitation is measured at 5 p.m. each day. Rainfall after 5 p.m. is recorded on the following day.

# Flea Market Set Saturday

The second big Flea Market of the year will get underway here Saturday as many Hamlin merchants will be joined by area residents out on the sidewalk selling goods.

The big event is sponsored by the Retail Trade Committee of the Hamlin Board of Community Development.

The Retail Trade Committee has extended an invitation to all area residents to join in the big downtown garage sale by bringing their unwanted goods to town Saturday.

Several clubs and organizations are expected to join in the activities with booths out on the sidewalks.

A number of downtown merchants are planning big sidewalk sales with special bargain prices good for Saturday only.

Mrs. Robert Fowler, chairman of the sponsoring committee, urges everyone to come to Hamlin Saturday and join in the fun. She said that the committee hopes that a large crowd will be on hand to swap, shop and sell during the one-day event.

## THURMAN, YOUNG LEAD HERE—

# Thurman, Martin Win In Saturday Primary

Jones County Judge Leon Thurman needed the huge Hamlin margin he received here Saturday to gain re-nomination as he won a very close contest with Anson motel owner Roy L. Lane in the Democratic runoff. Thurman edged out Lane by 45 votes, 1,173 to 1,128.

Thurman received his biggest edge in the combined Hamlin boxes as he led 372 to 94. He also led in the huge Anson box 439 to 290 and led in Avoca 28-25, Round Mound 18-14 and carried the absentee box 42-11.

Lane picked up his biggest vote total in Stamford as he led 383-182 and carried Lueders 113-30, Hawley 124 to 44, and Noodle 45-19.

Eight out of the nine Jones County boxes went for Abilene Attorney Mike Young in his unsuccessful bid to unseat incumbent State Rep. Elmer Martin. Young received his biggest margin in Jones County as he out polled Martin 1,370 to 914 with only the Stamford box going for Martin 364-198. Young won all the other boxes, Hamlin 350-112, Anson 409-290, Lueders 106-36, Avoca 28-27, Hawley 149-17, Noodle 51-13, and Round Mound 24-8, as well as the absentee box 60-14.

Rep. Martin carried the 5-county District 61 State Representative race by a 2-1 margin, 5,721 to 2,871. Since no Republican filed for the post, the former Mitchell County Judge will return to the state legislature for a second two-year term.

Mitchell and Nolan Counties provided the incumbent legislator with the

winning margin. Mitchell County gave Martin 95 percent of the votes cast, while Nolan County delivered 80 percent of the vote to the legislator.

Martin carried Fisher County 569-213, Mitchell County 1,452-81, and Nolan County 2,209-566, with Young carrying Taylor County 641-575 and Jones County 1,370-916.

## Bill Cork to Run 440 At International Meet

Bill Cork and his coach Bill Grissom will leave from Abilene Friday morning for Mt. Prospect, Ill., where Cork will participate in the third Annual International Prep Track and Field Invitational.

He has been chosen as one of the top prep track and field athletes in the world to participate in this meet. Cork will be running in the 440-yard dash.

Cork was the only three-medal winner in the Klein Southwest Track Festival held near Houston this past weekend. He won second in both the 440 and 220-yard dashes and placed third in the high jump.

He was second to Mark

Collins of Burleson in both the 440 and 220. Collins at that time had the best 440-yard dash time in the nation with a 47.0 while Cork had the third best with a 47.2. Cork ran a 48.1 in the 440 and a 21.9 in the 220. He jumped 6'6" in the high jump, the same height as the second place finisher.

Watches were awarded to first place winners at Klein with Olympic style medals awarded to second, third and fourth place finishers.

Cork's expenses to the meet this weekend have been paid by Coca-Cola Bottling Company of Abilene and Coach Grissom's expenses are being paid by local donations.

**SHOWS OFF HIS MEDALS**—Bill Cork, Hamlin's outstanding quarter-miler, shows off his three medals he won this past weekend to his track coach Bill Grissom (at left). Cork won second place medals in the 220- and 440-yard dashes and a third place medal in the high jump at the Klein Southwest Track Festival Saturday. He will be running the 440-yard dash this weekend in the Third Annual International Prep Track and Field Invitational at Chicago, Ill.

# FROM THE FILES . . .

## FIFTY YEARS AGO (May 30, 1924)

An infertile egg never spoils. In the warm climates, it eventually becomes watery, but in a cool atmosphere will remain fresh indefinitely.

During the summer season, there is a general "bad egg" complaint; the wise house wife has learned to "handle with care" summer eggs—Even to "stop, look, listen," before breaking. This loss and inconvenience can be prevented by keeping the roosters penned from the flock.

It has been proved conclusively that the egg production is as great when there are no roosters among the flock as when they are allowed to run with the hens. The average Texas poultry keeper thinks of the flock as a mere side line and carelessly ignores the fundamentals upon which the profits from the hen are dependent. Perhaps one-fourth of the Texas summer eggs are spoilt and are never consumed.

Doubtless the average house wife would pay five cents a dozen more for eggs that she knew to be sound.

A. R. Masterson, County Agent

This week the teachers and pupils have been very busy closing up their 1923-24 school term. The final programs began on Thursday evening of last week and there has been some feature of school work every night, except Monday and Wednesday nights. Two attractive programs were rendered by the Expression Department and Music Department on closing nights of last week. The Baccalaureate Sermon was delivered at the Baptist Church, Sunday night, despite the fact that the weather was rainy and stormy. There was a fairly well filled house and Rev. Edmonds gave the graduates a wonderfully good sermon.

## TWENTY YEARS AGO (June 4, 1954)

Saturday will mark the formal opening of the completely remodeled Waggoner Drug in Hamlin, Frank and Jerry Waggoner, co-owners, announce.

Although most of the stocks had been moved from the temporary quarters across the street several days, and business has been transacted in the new site for more than a week, Saturday was set as the formal opening day by the partners.

From the green-tinted Roman brick and plate glass front to the back door, the place is brand spanking new—including floor, floor covering, fixtures, lighting, ceiling and a complete painting job.

Chrome-framed plate glass show windows that go practically to the floor provide a thorough natural lighting from the east front of the store.

Upon entering the place, one is immediately impressed by the beautiful new fixtures that were designed and built-to-order for the store.

A completely new soda fountain sets off the south center of the store. Serving booths and tables flank the west end of the fountain.

In the north rear of the store a modern prescription department is the last word in arrangement. Scientifically designed for quick access to prescription ingredients, it features modern lighting.

Jerry Waggoner, co-owner of Waggoner Drug, followed in his father's footsteps by growing up in the drug store.

## TEN YEARS AGO (June 4, 1964)

Current events were used in this year's study of birds in the second grade class taught by Mrs. Leldon Clifton as the class followed with great interest the birth of a whooping crane which boosted the population of whooping cranes from 39 to 40.

The class became interested in the the whooping cranes after reading an account in the Abilene Reporter-News concerning the setting of two whooping crane eggs by bantam hens. One was due to hatch April 30 and the second was due to hatch about May 2 or 3. The eggs were donated by the New Orleans Audubon Park Zoo.

The class watched for a story about the hatching but when there was no item published about it they wrote the Fish and Wildlife Service of the Department of the Interior for further information.

## Group Sets Concert Here Tonight At 7:30

Paul DeLaTorre and the Galileans, advertised as America's number one Latin gospel group, will be presented in concert tonight (Thursday) at 7:30 in the First Assembly of God Church.

DeLaTorre was a leader of a rock band before his conversion in 1960 and had, at one time, played with singer Trini Lopez. Mexican-Americans singing gospel songs was unheard of until this 19-year-old performer, searching for some means of expressing his new-found Christianity, asked himself, "Why not?"

Originality of style, combined with professional performing talents, has been a hallmark for The Galileans, who make their home in Dallas. All had had a taste of the entertainment business in earlier years, and, like Paul, found it "empty."

Joel Perales, pianist and vocalist, has a tremendous talent for writing and composing. Rose Perales, Joel's wife, sings harmony, lead and plays tamborine. Tony Gonzales, who is also a minister, rounds out the foursome singing lead and baritone.

The Galileans have recorded 10 stereo albums of

gospel music, also available on 8-track stereo tapes. Amburn, extends an invitation to all to attend.

The bilingual group combines a concert repertoire of their own arrangements of old and contemporary religious songs along with selections in Spanish lyrics, often in an instrumental setting that has a distinctly Latin American flavor.

The pastor, the Rev. Carl

## Neinda Philosopher Cleans Out Desk With All Sorts of Items Resulting

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One turns over some notes he says he has been accumulating recently.

Dear editor:

A desk, like Congress I guess, ought to be cleaned out every once in a while. Here are some notes I cleaned out of mine:

For weeks a neighbor of mine has been demanding to know what I think about Watergate. Well, I'll tell you, I have now read a good portion of the transcripts and I am firmly convinced that President Nixon has absolutely no fore-knowledge that the Watergate burglars were going to get caught.

Some politicians who have been straddling the fence for years are now finding out it was made of barbwire. Around here we call the T.V. show "Face The Nation," Two-Face The Nation, and "Meet The Press," Dodge The Question. "Issues And Answers" is known as

Confusing The Issues And Answers.

There's something to be said for a man who is smart enough to know he's not smart enough to be President. Probably need more of 'em.

The proof of the pudding no longer is in the eating, it's in the results of its scientific nutritional analysis and the effect it has on mice when they're fed nothing else for a month.

The word Watergate will now go down in history as a new word with a lot of awful meanings and I was just thinking, what if that building in Washington had been named The Hamlin Building? School children for years to come would be learning that Hamlin was a word standing for burglary, unlawful bugging, moral decay, defiance of the Constitution, obstruction of justice, perjury, bribery, confessions of guilt, jail sentences and no telling what all before the

**WIRE SHORTAGE THREATENS** — A serious baling wire shortage may cause economic hazards, Agriculture Commissioner White warned.

White earlier said the shortage would be between 22 and 47 per cent. Industry sources reported a 30 per cent shortage nationwide and a possibly higher figure for Texas.

Prices may rise from \$28 and \$50 a carton to \$70, White said. A year ago, the price was \$13. White said a black market situation may develop in baling wire as in fertilizer.

Haybaling is just beginning in the state. Ninety per cent of farmers in Texas use wire to bale hay.

## NEWS FROM

## OLD GLORY

By BERNICE D. WHITE

Our community was fortunate indeed when we received that good rain last week end. Up to around two inches has been reported for the Saturday and Sunday night combination. Much of the wheat has already been harvested, and many farmers were waiting for this rain to plant or give a boost to crops that were already up.

Vegetable gardens are also looking much better this Monday morning.

Mr. and Mrs. Clancy Lehrmann celebrated their 25th wedding anniversary with a dance at the Old Glory Sons of Herman Hall last Saturday night. Refreshments were served to approximately 300 people.

Guests registered from Slayton, Mathis, Georgetown, Lubbock, Snyder, Abilene, Lewisville, Fort Worth and Old Glory and other area towns.

Mr. and Mrs. Lehrmann were married on June 2, 1949. They have two children. Their daughter Gayle is a physical education teacher at Lewisville, and their son Steve is a student at Texas Tech in Lubbock.

The Old Glory Variety Club met last Thursday in the home of Mrs. Danny Letz. The meeting was hosted by Mrs. Allen Letz. Eight members were present and they enjoyed an afternoon of quilting.

Mrs. Garrett Spitzer will be hostess for the next meeting on the afternoon of Tuesday, June 11.

Eustaquio Castro-Mendoza is listed on the Dean's Honor Roll for the spring semester at Angelo State University where he is a student.

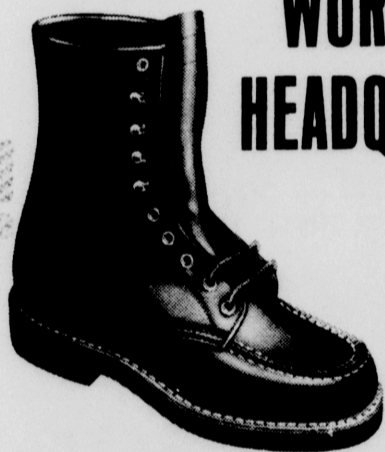

He is a 1973 graduate of Old Glory High School and is the son of Mr. and Mrs. Isaac Castro.

## Local Business Takes On A Purina Franchise

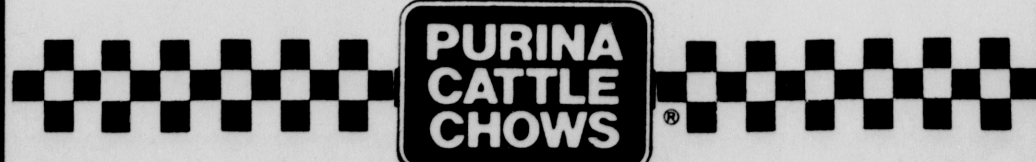

It was recently announced by Mr. Jerry Jeffrey, manager of Hamlin Farmers Co-op Gin that they will operate their feed business as a Purina Franchise dealer with the Ralston Purina Company effective May 1st.

"We have many good customers, and our primary concern is to provide them with the highest quality products and services possible. Purina does extensive research and field testing on all of their products and programs before they reach the customer and then stands behind them 100 percent. This knowledge, plus Purina's dedication to improved animal feeding and health technology, helped us make this big decision. We are pleased to be associated with this service-minded Company," commented Mr. Jeffrey.

In addition to the feed business, Hamlin Farmers Co-op Gin offers a full line of Seed, Farm Supplies and equipment, Purina Health Products, etc.

Besides his business endeavors, Mr. Jeffrey is active in local 4-H and FFA in addition to his own farming and ranching activities.
